BRONCHITIS

Bronchitis is very prevalent. It generally begins with a common cold, attended with cough, hoarseness, soreness of the lungs, tightness of the chest and difficulty in breathing. If not cured, it becomes dangerous—thousands die from bronchitis annually. Dr. John W. Bull's Cough Syrup is the best remedy for this disease; it relieves the cough at once, cures expectoration, and cures in a few days.

Dr. Bull's Cough Syrup

Will promptly cure Bronchitis. Doses are small and pleasant to take. Doctors recommend it. Price as at all druggists.

Has Attracted World-Wide Attention During the Past Year.

Washington, March 13.—Lieutenant de Faramond of the French navy recently arrived here in company with the French ambassador, M. Cambon, to become naval attaché of the French embassy. Lieutenant de Faramond has had wide experience as a naval observer, following the Japanese and Chinese vessels through the China-Japan war, and now coming here to study American naval methods. Speaking of the American navy, Lieutenant de Faramond said:

"The American navy has attracted world-wide attention within the last year, and this is leading European countries to send naval attaches to Washington. This will be the first time that the French government has had a naval attaché with the embassy. A German

naval officer is coming to the German embassy, and other countries doubtless will follow in the same line.

"Since the Spanish-American war this country affords splendid facilities for naval study. It was the first real test of modern fighting vessels, and naval science must draw its conclusions largely from what the American navy accomplished during the war with Spain. I think it is universally conceded in Europe that the American navy made a splendid record, not only in a general way, but in technical matters of naval detail. It demonstrated the effectiveness of the rapid-fire gun of medium caliber, rather than the larger guns. It also seemed to show that the power of a navy is more in its weapons of attack and offense, its capability of giving blows, rather than its heavy armor and capability of resisting blows.

Lieutenant de Faramond says foreign naval observers are not only interested in the results of the war, but are also observing the large amount of naval construction now in progress in the United States and the naval improvement it involves. From Italian naval statistics he shows that the United States is today second among the great powers in point of warships under construction.

This tonnage by countries is as follows: Great Britain, 153,132 tons; United States, 56,425 tons; Japan, 47,530 tons; Russia, 29,040 tons; France, 25,668 tons; Germany, 16,545 tons; Italy, 2,972 tons.

Bidding the President Goodbye.

Washington, March 13.—A number of the friends of President and Mrs. McKinley were at the white house last night to say goodbye and to wish a happy journey to the chief executive and his wife, who start on their trip south this evening. The affair was entirely an informal one. Among those present were Postmaster General Smith and Secretary Hitchcock. Vice President and Mrs. Hobart, H. H. Kohlsaat of Chicago and several residents of Canton, O., now living in Washington, were among the callers.

NO STATE RELIGION

There Is No Possibility of Japan Adopting One.

Washington, March 13.—Much interest was manifested yesterday in reports to the effect that the Japanese government is discussing a plan to adopt Christianity as the state religion. The published report was last night shown to Mr. Jutaro Komura, the Japanese minister, who was asked to make a statement on the subject. In reply, through an attaché, he spoke substantially as follows:

"The statement that Japan is discussing a plan to adopt Christianity as its state religion is not true, and there is no possibility of this being done. Unlike Russia, England and other European countries, the Japanese government has no state religion, but according to the constitution of the country every religion is given the liberty to exercise its functions so long as they do not interfere with or disturb the peace, order and good moral of society."

SALUTE TO BE FIRED

When the Transport Bearing Remains of Soldiers Arrive From Cuba.

Washington, March 13.—The secretary of war has sent the following order to Major General Wesley Merritt at Governor's Island, N. Y.: "By direction of the president, you will, upon the arrival of the Roumania, with the remains of the soldiers who were killed or have died at Santiago and Porto Rico, fire a fitting salute, order all flags half-masted and detail a sufficient guard of honor to see the caskets taken off the ship and expressed to their former homes. The Roumania is expected to arrive very soon. Will telegraph you as early as possible the exact time."

ARTER'S LITTLE LIVER PILLS.

Grip Hangs On.

Unless the poisons deposited in the system by the germs of LaGrippe are quickly and thoroughly driven out at the beginning they will continue to sap the vitality and waste the nerve forces of the body until the strength gives away and the victim is overcome by nervous prostration and collapse. Ancient methods of treatment are no longer recognized as competent to treat this tenacious disease; but there is a remedy which never fails to give relief so long as there is vitality enough left to build on. It is Dr. Miles' Nerve and Blood Food and Vitalizer of unequalled value in all cases of grip or its terrible after effect. Headache, backache, nervousness, dizziness, loss of appetite, inability to sleep, and nervous prostration all yield before its wonderful soothing, strengthening and vitalizing influence.

"LaGrippe left me terribly afflicted with neuralgia, sleeplessness and stomach trouble which soon developed into nervous prostration and I was a complete wreck. When our home physicians failed to help me I went to Grand Rapids for help, but they gave me up to die. Began taking Dr. Miles' Nerve and Blood Food and after the first dose. In a few weeks I was well and now I can do as much work on my farm as I ever could."

JOHN F. FISHER,
Cedar Springs, Mich.

A trial package of Dr. Miles' favorite treatment for the grip, consisting of Dr. Miles' Nerve, Dr. Miles' Anti-Pain Pills and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person sending name and address on a postal card, requesting the samples and naming this paper. Now is the time to begin advertising for spring trade.

PRESIDENT MCKINLEY leaves Washington tonight for a few days' rest and recreation in the South.

The revival of industrial conditions throughout the country is a great disappointment to men like Bryan, who do nothing but talk calamity. But the change of conditions will bring joy and happiness into the homes of many who believed that only by the adoption of Bryan's populist theories could prosperity come. They will not now have the same confidence in the free silver leaders they once had.

ACCORDING to reports the school teachers of Indiana propose to form a union, a sort of teachers' trust, whereby they propose to offer protection to "members in good standing." They propose to countenance only the employment of "professional teachers," or those that belong to the "union." No "scabs" need apply where they are in control. They will probably adopt a union scale and be prepared to go out on a strike whenever that is disregarded.

One does not have to travel far to be convinced that the truancy law is not made to reach every boy that ought to be in school. Go about the depots about the time trains are due and you will find a number of boys there, occupying space belonging to the traveling public, pushing and shoving and other about, and smoking cigarettes, and thus idling away their time. This is a daily occurrence and why is it so? Who is interested in these boys? Why are they not in school? Why are they not being prepared for the highest and most useful citizenship? Education in itself does not so prepare them. They should be in school every day, not simply to fulfill the law, but for their own good and for the good of the society.

Dr. Williams' Pink Pills for Pale People makes one sleek, strong and restless. Dr. Williams' Restorative Nerve Tonic.

When to Fish.

The new fish law is now in force as an emergency clause was attached. Its provisions should be known to the man who uses rod and reel as well as the man who uses a seine or trot-line. By the provisions of the law there is to be no fishing not even with a hook and line during the months of May and June in the streams and lakes of the state. Section 4 of the law reads as follows:

"It shall not be lawful to take, catch or kill any fish in any way nor by any device whatever in the months of May and June, in any of the streams of the State, or, except with a hook and line, in any of the waters of this State except Lake Michigan and the Ohio river, and except, also, in private ponds, between the first day of January and the first day of April, and between the first day of May and the first day of July of any year. Whoever shall violate, or attempt to violate, any of the provisions of this section shall be deemed guilty of a misdemeanor and shall be fined not less than \$5 and not more than \$50 for each offense."

The new law permits trotline fishing ten months in the year. The law also permits seining during the months of July, August and September under certain conditions. The seine must not be more than 100 feet long and the meshes not less than an inch and a half in size. The law makes dynamiting the streams a felony, punishable by imprisonment for not less than one year nor more than three years.

The provisions of this law are unquestionably wise and should be obeyed. The people generally ought to accept the law as right and help to enforce it wherever necessary.

The season is here to plant trees. It is a work that costs little, yet is of the first importance in making a city attractive. Shade trees are not only beautiful in themselves, but temper the solar heat and help to keep down the dust. They add to the comfort and healthfulness of city life and unquestionably enhance property values. The two worst enemies to tree planting in cities are procrastination and improper setting and protection of the trees. New York has an association of citizens which, for the small cost of the work, not only carefully selects, plants and guards shade trees, but guarantees their growth, or, if they die, the replacement. In Paris the planting and care of shade trees is in the hands of a scientifically organized city department. Every visitor is delighted with the results of its labors and wonders why other cities are not made beautiful by the same simple and inexpensive system.—Globe Democrat.

Wednesday and Thursday of this week the State meeting of the county assessors will be held at Indianapolis to agree upon the prices to be fixed upon etc., and to attend to other business pertaining to the assessment of taxes. Within a few days the deputy assessors will be selected and the work of listing the property for taxation will begin April 1. This year the real estate is to be appraised for the first time in four years and a double force of assessors will be required.

Southern Indiana Press Association.

The Southern Indiana Press Association will meet in semi annual session at Seymour Friday, March 24. This meeting will be a very important one and should be largely attended. It is the real annual business session of the association.

All newspaper men south of the Old National Road may become members by paying \$2.00.

Members applying to E. A. Ford, G. P. A., St. Louis, Mo., can obtain trip passes for this meeting. The B. & O. S-W. will furnish trip passes to all who have advertising contracts with them. Every newspaper man in Southern Indiana should be present.

Bayan, Ohio, Jan. 13, 1897.
Gentlemen:—For years I had been suffering from indigestion. Had a poor appetite and could not eat anything containing grease and had constantly had a worn out feeling. After using three 50c bottles of Dr. Caldwell's Syrup Pepsin I am now able to eat anything my appetite craves and can say it has made a new man of me.

Will Remove to Rushville.

Attorney J. T. Arbuckle has sold his office furniture to F. W. Wesner and will remove to Rushville ten days or two weeks hence where he will open an office and practice law. He has also sold his residence property and will give possession of that in a few days or as soon as he can get his business in shape to move. Mr. Arbuckle has been a resident of Seymour the past six years and during that time has made a host of warm friends who will regret his leaving, but will wish him success and prosperity in his new field. Mr. Wesner will take possession at once of the office vacated by Mr. Arbuckle and practice law alone.

To Much Bug Juice.

Charles Hancock, of Brownstown, in company with another young man drove here Sunday afternoon, imbibing freely from a bottle on the way, so that they were in a good condition for trouble when they got here. Hancock was in the hands of Marshal Thickett in a short time and later in jail. He pleaded guilty to the charge of intoxication this afternoon before Judge Hoover. Other charges could be preferred against him it is said but he may be permitted to go home without further trouble now.

Drying preparations simply develop dry catarrh; they dry up the secretions which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents, large for 50 cents. All druggists keep it. Ely Brothers, 56 Warren Street, New York.

Lung Irritation.

Is the overcurer to consumption. Dr. Ball's Pine-Tar-Honey will cure it, and give strength to the lungs that a cough or cold will not settle their warty-fifty cents at all good druggists.

I have been afflicted with Rheumatism for fourteen years and nothing seemed to give relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.

TIBBS WAS ELECTED.

THE FLIGHT OF ORATORY THAT WON HIM A PAGESHIP.

Jimmie Was Not Bashful, and His Early Call on Senator Eldridge Gave That Gentleman an Inspiration in Words That Carried the Day.

Below is printed the noted speech of Senator Eldridge of Shelby in nominating Jimmie Tibbs, the Nashville newsboy, to be page of the senate. Senator Eldridge had made the newsboy's cause his own, though the little fellow came to him unknown, with no stronger sympathy than the boy's frail yet energetic appearance. Senator Eldridge had notified the senate that the man who voted against Tibbs voted against the senator from Shelby, and the sweetness of revenge would come when the opposing voter wanted the senator's support on a local bill. The speech was as follows:

"Mr. Speaker, I nominate for page Jimmie Tibbs of Davidson county. There can be no ulterior motive ascribed to this nomination, no railroad passes, no champagne suppers, no political pilla I come from the muddy Mississippi river and Mr. Tibbs from the misty mountain tops of middle Tennessee. Mr. Tibbs has seen ten summers, but many, many winters have shed their snow on his sunny head. His freckled, anxious face is standing there gazing at me now. He is looking up now, but for nearly all his life he has looked down as he has shined the big feet of small men.

"Mr. Speaker, Mr. Tibbs is not here as a supplicant for pity or sympathy. Mr. Tibbs is a man and the head of a family. Mr. Tibbs has met the dizzy, stunk world and won out. He has not become as dizzy or as sick as you and I, and, therefore, I will not refer to the humble home of Mr. Tibbs or the old mother who, no doubt, is on her knees praying to Almighty God for Mr. Tibbs. I will not refer to the paralyzed brother who, like myself, knows that Mr. Tibbs cannot fail. But somehow I feel cold when I think of that snowstorm out yonder and how it must rattle the curtailless windows of Mr. Tibbs' residence. And, Mr. Speaker, I somehow do wish that the mother of Mr. Tibbs would kindly mention this great senate in that prayer, for, if he did, I believe it would suit its constituents better, and we would come nearer coming back next time.

"Mr. Tibbs, like myself, has been blown into this senate by the sublimity of luck. Destiny chooses her disciples with unerring aim, and those who oppose Mr. Tibbs are fighting God. I will tell you why I think this. I am stopping at the Tulane hotel, by the faith of the host thereof. My wife and baby are with me there. Yesterday morning I had been up very early discussing the question of a new constitution for myself and my state.

"At 6 in the morning Sarah was softly humming to the teething baby, rocking him back to rest, to sleep and to forgetfulness, which is the only rest. The old refrain rose and fell as the nodding of a flower:

"Come and make a dying bed.
Feel soft as downy pillows are,
While on his breast I lean my head
And softly breathe my life out there."

"Knock! knock! 'Come in,' I angrily said, expecting a bellboy.

"Mr. Tibbs appeared. He came to the bed and said: 'Senator, I am named Tibbs, and I want to be page of the senate. I want you to make the rest of them vote for me, please sir.'

"Mr. Tibbs,' I replied, 'does it not occur to you that you are crowding me somewhat? Don't you think for the kind of a day and the time of day that your visit is not the proper thing?'

"Well, it is good daylight," he said, "and I have been up some time."

"Yes, sir, all men should be ready for business by this time," was my rejoinder, "but why do you come to me and how did you find me?'

"I saw you in the Climax saloon yesterday, and Mr. Madden, the barkeeper, said you were a senator," came the unhesitating answer.

"I quickly glanced at my wife, the rocking had stopped, and the baby, hearing a strange voice, had ceased his complaint and was sitting up, looking like a jack rabbit in a bed of lilies, all eyes and ears.

"I said, 'Mr. Tibbs, I must ask you to excuse me, I will call on you later.' 'Yes, sir, I will see you,' he replied, and went away.

"Sarah turned her head and said, 'Will I am for Tibbs?'

"Mr. Speaker, I arose and raised the curtain of the window. The east seemed flecked with a swarm of golden bees: the sun, that had been away, was knocking at the front door of this planet. Sir, who can tell of the systems and cycles he had smiled upon, of his unspeakable glory and sublimity? The light of this sun will fade by and by. At one time it was born, at one time it must surely die, but, sir, the fire I had seen in the eyes of Jimmie Tibbs will not die. It is older than the sun. It has stood floods of storm and wrath that would quench that sun. One is of today, but the faith, the courage and the hope of Tibbs make us dream again of the immortality of the soul."

Tibbs was elected.—Nashville American.

Neglected Poo.

I wonder when America will know that much her greatest bard is Edgar Poe! I say this reminiscent and defiant Of Boker, Tabb and Longfellow and Bryant.

Mrs. Pinkham's Advice Saved Mrs. Hayes From an Operation.

[LETTER TO MRS. PINKHAM NO. 64,853]

"DEAR MRS. PINKHAM—Words cannot express my thanks to you for your kind advice to me in regard to my health. I had been running down in health for about seven years. I had doctored with good doctors and taken a great many patent medicines. My trouble began when my first child was born. I had a very hard time and after its birth would have severe flooding spells.

"After my second child I had very good health until last winter when I again became pregnant and suffered very much and miscarried. I came very near dying, and the doctor said I must have an operation, which frightened me very much, and concluded to write to you for your advice, and take your medicine. Was troubled with the whites, great pain in back and hips, sometimes when lying down or sitting was unable to get up. Would have such pain in groins could hardly walk.

"I can say I have never seen anything so wonderful as Lydia E. Pinkham's Vegetable Compound and Sanative Wash. Your remedies have done wonders for me. Hoping that many of my suffering sisters may be led to take your medicine from reading this letter, I remain, sincerely yours, MRS. MARY HAYES, HARDINSBURG, KY."

Letters like the foregoing should convince everyone that Mrs. Pinkham's advice is certain help.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and by constantly failing to cure with local treatment, pronounced it incurable. Gravel Road Law Changes.

The present Legislature has amended the free gravel road law in several important particulars.

It makes the bonds run twenty years instead of ten years, and reduces the interest rate from 5 per cent to 4 per cent. The bonds ought to sell better because of the longer time and the payments will be much easier.

The law also provides that if the election carries, the cost of election shall be made a part of the cost of construction and shall be paid by the commissioners, but if the election fails the expenses shall be paid by the petitioners.

The law also further provides that when a road is to be improved through an incorporated town the trustees of the town shall first give their consent and upon completion of such road the town shall take charge and maintain that part within its limits.—Bedford Mail.
